

SELF-GENERATION INCENTIVE PROGRAM

Energy Storage Proposed System Information Customer Attestation

**The following information (Responses to Questions 1 – 5) is required for all Equity and Non-equity Resiliency projects and all other projects with a discharge duration greater than two hours.**

- 1) Provide an estimate of how long the project's fully charged battery will provide electricity for the relevant facility average load during an outage.

- 2) Indicate whether the project's critical loads can and will be isolated.

- 3) Provide an estimate of how long the project's fully charged battery will provide electricity to critical uses during an outage.

- 4) Provide an estimate of how long the project can operate in less-than favorable circumstances, such as if an outage occurs when the battery has been discharged or during the winter (if paired with solar).

- 5) Summarize information given to the customer about how the customer may best prepare the storage system to provide backup power, in the case of a Public Safety Power Shutoff (PSPS) event announced in advance (provide an attachment with more information if necessary).
